<b>Reading Comprehension</b>		
2	<p>متن زیر را با دقت بخوانید و به سوالات مربوطه پاسخ دهید</p> <p><b>Passage 1</b></p> <p>Languages vary greatly from region to region. They are so different that a person does not understand the language of someone from another region, country or continent. So, it is not surprising to hear that today about 7000 languages exist in the world. There are more than 2000 languages in Africa, 1000 in the Americas, more than 2250 in Asia, about 230 in Europe, and more than 1300 in Australia. Native speakers of these languages range in size from very large, with hundreds of millions of speakers, to very small, with fewer than 10 speakers. The most popular language in the world is Chinese. More than one billion people in the world speak Chinese. English does not have this number of native speakers, but it has around one billion learners around the world. They learn English as an international language. About 50% of the world's languages have fewer than 5000 speakers. In the beginning of the twenty-first century, 204 languages had fewer than 10 speakers and 344 languages had between 10 and 99 speakers. The 548 languages with fewer than 99 speakers make up nearly 8% of the world's languages. We call them 'endangered languages'. As the speakers of such languages grow old and die, their languages will die, too.</p> <p style="text-align: center;">« ادامه سوالات در صفحه بعد »</p>	13

Then he married, so he thought, "Now my wife is going to make my sandwiches." On the first day, she made him some, and when he got home in the evening, she said to him, "Were the sandwiches all right?" "Oh, yes," he answered, "but you only gave me two slices of bread." The next day she gave him four slices, but he said again, "Four slices aren't enough." The third day she gave him eight slices, but those were not enough for him either, so on the fourth day she took a loaf of bread, cut it in half and put a big piece of meat in it.
